New Delhi, the 09th October, 2018

NOTIFICATION

No. 8(22)/2016-EG-I Whereas, the e-Governance initiatives of India have acquired a new momentum with a launch of the Digital India Program by the Central Government. At the same time, one has to recognize that India is below global average on United Nation (UN) e-Government Index and needs to take large strides to make up. The UN e-Government survey 2016 emphasizes on three aspects; A whole-of-Government Approach, Policy Integration and use of Big Data Analytics as the important means for achieving the Sustainable Development Goals. Enterprise Architecture approach is a good way to achieve the same. India has to leverage its current strengths- widely and rapidly. Adoption of India Enterprise Architecture (IndEA) enables a planned development through Architectural Thinking' and

Whereas India has to raise the bar by migrating the systems to ecosystems, adoption of Enterprise Architecture, Digital Service Standards (DSS), leveraging new technologies and providing leadership to digital transformation teams. The pre-requisite of this ecosystem requires to be strengthened by means of architectures, open standards, open data, business model and regulations and

Whereas as a part of Standards for e-Governance, a need was felt to formulate the India Enterprise Architecture (IndEA) Framework along with Adoption Guide in order to improve the e-Government Index and

Whereas the Competent Authority on Standards has approved IndEA Framework and IndEA Adoption Guide. IndEA framework is based on 36 principles and 08 references models supported by a set of globally acceptable standards. The reference model covers business, which provides port-folio of services, application, data, technology, performance, integration, security and architecture governance and

Therefore MeitY, GoI notifies IndEA Framework and IndEA Adoption Guide published on http://egovstandards.gov.in for enabling a planned development through architecture thinking w.e.f date of notification.
